A family in Bucktown tasked Lakesha Rose of L Rose Interior Design with creating a movie room adjacent to their fourth-floor outdoor roof deck. It serves as a gathering space for entertaining and when the weather turns cold, a cozy, moody retreat. She paired a soft, neutral palette with deeply comfortable seating, perfect for lounging or watch parties. The sofa, from **CAI Designs**, is covered in a deep-green velvet from **Romo**, with trim on the pillows from **Samuel & Sons**. Carpeting from **Watson Smith** can handle traffic to and from the outdoor deck, and a table from **Thibaut** is perfect for cocktails and snacks. **Above:** The most coveted seat in the house is the white leather recliner from **Artisan Electronics Group**.
